B. RESPONSE TO QUERIES

QUERY/ISSUE	BAC/END-USER RESPONSE/CLARIFICATION
For the memory of the Development Workstations, usually the new models are upgradable to 16GB. Will you consider 16GB instead of the required “can be upgraded/configurable to 32GB”?	The units are for developer’s workstations. Thus, it will require more capacity in order to perform demanding tasks. Also, the 16GB is substantially lower than the requirement. However, if you can offer a unit that is not soldered to the motherboard and can be upgraded to 32GB then it will comply with the said requirement.
For 1.11.3. 4-in-1 Micro SD card reader (SD, MMC, SDHC, SDXC), the units that we are offering do not have a SD card reader. Will it suffice if we are going to provide an adapter for the SD card requirement?	The adapter in lieu of the SD card reader is acceptable.
May we request to change the delivery terms from thirty (30) calendar days upon issuance of Notice to Proceed to sixty (60) calendar days upon issuance of Notice to Proceed?	Sixty (60) calendar days upon issuance of Notice to Proceed is acceptable.

ADDITIONAL INSTRUCTIONS: Prospective bidder/s are required to amend the form to update existing information.

Please be guided accordingly.
